—The exhilarating and brutalizing effects of apple jack was beautifully illustrated on our streets last Monday afternoon by two worthies from the neighboring township of Lynn. If the parties themselves were made to bear the consequence of their own folly, there would not be much reason to find fault, but when poor dumb brutes are lashed and driven through our streets at a furious gait, endangering the lives of our citizens, it is time justice was after the miscreants.

—The Rawson Reapers and Mowers, handled by F. S. Poole are the lightest and strongest machine in the market. The mower is the easiest managed machine in the trade, and the one best adapted to all conditions of grass and land. In the improved reaper for the season of 1882, is presented a model machine tried in all its parts and found wanting in none. Lightest draft and strongest as it is possible to make it in all parts subjected to severe or steady strain. The greatest care is exercised in the manufacture of these machines and we are confident that they are just what the American Farmers want, and without which they cannot afford to work their land. Critical examination and comparison is solicited. F. S. Poole, Agent.

### FOURTH OF JULY.

3,000 People in Town—Grand Success.  
—Everybody Departs well pleased with the Proceedings.

Never, has Brockway Centre been visited by such a crowd of people as were here on Tuesday last to witness the celebration of the 100th anniversary of our country's freedom. The day before the skies were loaded with clouds and it hardly seemed possible that we could escape one of the all day rains that have become so common in '82. The morning broke clear and bright, and at an early hour the committees were hard at work decorating. There were abundant indications at an early hour of what the attendance would be, and it more than met the expectation of any one. From nine o'clock until twelve, long lines of farmers vehicles were constantly in sight on all roads leading to Brockway Centre. The day was opened by a salute of 38 guns. The procession was headed by the band, and the music rendered by them through the day done a great deal to enliven and they have the thanks of the committee for the able manner in which they conducted their selections. Next came the call-thumpians, which, taking them altogether, were good. The company of platform dancers took the prize. The representation of the two Indians were well gotten up, and we will say this much, had they the required number they would certainly have carried off the cake.

The sports of the day passed off satisfactorily and the following are the prizes awarded:

The day's proceedings closed with a fine display of fireworks. The balloon ascension was magnificent to behold and everybody was well pleased. On motion of T. Henson three rousing cheers rent the air for the committee of arrangements who worked so faithfully and manfully in order to make it enjoyable for those present; for the merchants and others who contributed so liberally towards the celebration and also for the prosperity of Brockway Centre. Everything passed off pleasantly and satisfactorily and in years to come it will be remembered as an enjoyable event of the past.

—Jas McArthur left to-day for Canada to visit his parents.

—Wonder if anyone has recognized the poor sick man at Henson's yet?

—Thos Brown, son of Jas Brown, for the past few months at work in Mt Pleasant has returned home.

—A subscription paper has been circulated for the benefit of the band and \$12 was subscribed. Thos Rapley gave \$3 thereby making \$17 in all.

—The Township Board met at 9 a. m. on Friday, June 30th. Present, J. D. Jones, Simcoe Lutes, J. W. Gustin and Henry Pearce. The object of the meeting was to transfer money from the contingent fund to the road fund. Moved by Simcoe Lutes supported by H. Pearce that there be four hundred dollars appropriated out of the contingent fund to build a bridge across Mill creek between Sec 15 and 22, which was carried. No money to be paid until said bridge is completed. A good deal of excitement was created at the meeting.

—Our village had a big time on the 4th. Many thousands from the country and neighboring villages came in to share in the fun, thronging our streets from morning till night. The various amusements furnished by those having management gave vent to the gushing patriotism of both old and young, while ample provision was made to satisfy the wants of any kind of stomach. There was some tall grumbling done by a few thirsty souls, in consequence of the bars of the hotels being ordered closed by the Good Templars, although 'tis said a little of the precious stuff oozed out.

### —“Beware of the widowers.”—Sam

Weller. Messrs Hayes and Walker, two amorous widowers from near Sharp's corner appeared before Spire Duffie last Monday to have a little difficulty settled between them in regard to a fair widow of that neighborhood. It seems the affection of both, by some unaccountable trick of Cupid flowed out in the same channel and centered upon the widow's heart. Mr Hayes being the younger and an exhorter to boot, and probably a little smoother tongued, got the advantage of his rival and captured the citadel, and was no doubt, basking in the sunshine of requited affections, which rather stirred up the green-eyed monster in the breast of his less fortunate rival. Be that as it may, on one of his visits to the widow's premises Hayes caught the son of Mr Walker taking the nuts off his buggy wheels. This with some other sly depredations committed round the widow's house and outhouse looked very much as if Walker was having his revenge in that line. \$15 healed the breach.
